

Playing!

5min brainstorm + user stories

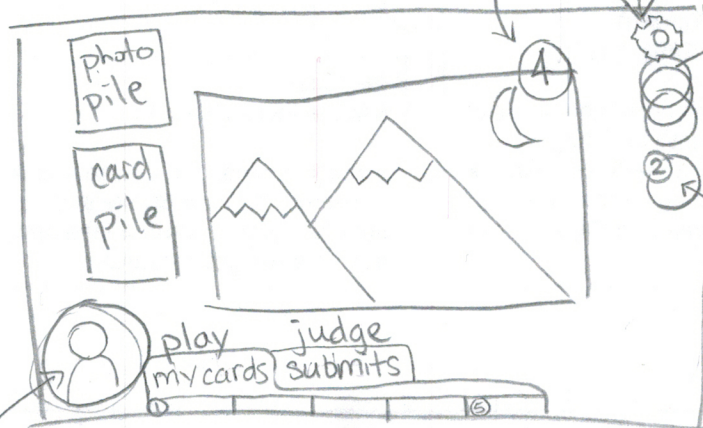

Active Player (not Judge)

each icon has name/handle

- swipe up to submit my caption to the judge.

turns from red to green when all submits received?

stacked player icons → opens up a window showing all player icons

Judge

- waiting for submits

of photos he won! → moving bubbles inspired by FB Message

! what are the transition screens?

automation:

- draws new caption card from pile for you once you submit one to judge
- game alerts judge when all players have submitted; sliding tray opens up w/ submitted captions
- keeps track of all points and who is winning
- scroll (horizontal) to see my captions

animation:

- avatar icons
- deck of my cards + submitted cards
- drag + drop new meme photo to center of screen

features * what buttons do I need
